| 32 | My only real comment is that I wish we properly finished the semester. I really enjoyed the lectures even when they moved online. I completely understand why you were no longer able to make videos but I wish we could have had proper lectures for the last couple subjects. Regardless, thank you for teaching us this semester! |
| 33 | Make the additional credits we have to take bonus points. That would be really nice since it is already extra work, not a lot of points, but like enough to boost students on the cusp of the next grading scale points. |
| 34 | Keep the course with MindTap because it was probalby the best help when it came to the tests and it wasnt something we had to pay for so that was really nice of the instructor to do. |
| 35 | I think this course was designed amazingly. |
| 36 | I really loved the time that I got to spend in the class before we transitioned online. I have no suggestions. |
| 37 | I really liked the way of teaching, the topics covered and the use of the Mindtap application. |
| 38 | I really enjoyed the use of poll everywhere and I would love to see that continue. |
| 39 | I like this course and want to finish all parts, but COVID-19 stopped it. |
| 40 | I do not have any suggestions, I thought it was structured well for hybrid course and learning came easy. |
| 41 | Great course |
| 42 | Great 101 course. |
| 43 | Exams were very difficult |
| 44 | Exam questions could be a bit more relatable to the course material. |
| 45 | Cool instructor, can be rude :(|

| 15 | This was probably the best class of my spring semester here at ASU. The way Dr. Jennings taught really showed how engaged she was for the lecture material. It was also clear how much she cared about the success of her students. Definitely my favorite professor so far at ASU! |
| 16 | This transition to online was tough, thank you for everything you did to make it a little easier for us students! |
| 17 | Professor Jennings makes the course incredibly exciting, intriguing and entertaining to learn. She caters to students very well but also manages to be fair in her exams. She genuinely cares so much unlike most professors and is very thoughtful of what is most effective for her students. She should definitely keep doing what she does and not change anything. |

| 34 | I really liked the real world examples she would reference so doing those as much as possible would be cool. |
| 35 | I like this class anyway |
| 36 | I do not have any suggestions but I would love to provide positive feedback. Professor Jennings was a great professor. She constantly found new ways to keep the class engaged, even though it was so large. After everything with COVID-19 happening, she was very understanding and willing to make sure our experience in the class was stress free. I am very grateful for her understanding and for the knowledge she provided. |
| 37 | I cannot think of any suggestions, for having such a large class Professor Jennings engaged her students and taught well. |
| 38 | I absolutely loved this class and Dr. Jennings did a great job teaching. |
| 39 | Good |
| 40 | Dr. Jennings was so inspiring during lecture. She was the only teacher that I had that was understanding of the coronavirus situation, which shows her heart as a n educator. |
| 41 | Dr. Jennings is by far my favorite professor I have had at ASU so far. She made me love psychology and provided her students with all the resources necessary to succeed. I'd recommend her to anybody and I'm glad I had the opportunity to have her as a professor. |
| 42 | Cool!!!! |
| 43 | Absolutely no suggestions. I loved her so much, she was so fun and outgoing and you could really tell she is passionate about what she is teaching. If I could take another course with her I wouldnt even hesitate. |
