1	no Jennings is AMAZING
2	na
3	dont make tests like the entire % of grading
4	Very fun and interesting course!
5	There is a lot of information and sources of information that are covered in this course (MindTap, Lectures, Slides, additional videos). It would be extremely helpful if on the exams (because they are weighted so heavily in the total grade if before the question or questions it specified where the information was pulled from in the course. For example, Questions 1-10 will be in reference to what you covered on MindTap and 2-10 are related to the lectures in class'
6	The class activities were a great way to keep the flow of the class and avoid info-dumping.
7	Thank you for being so understanding about switching to online and making it easy for us. I greatly appreciated it!
8	Professor Jennings should meet with her class on both days, and not depend on calling the class a hybrid course. Many students work better in the classroom environment, and I find her lectures engaging, and her students are losing that by only getting a lecture once a week and having to learn from the textbook the rest of the material.
9	No
10	No
11	No
12	No
13	Not really, it was a solid course
14	Nope
15	Nope!
16	None
17	None.

18	None. I loved Dr. Jennings lectures and all of the content. I never felt numb or distracted in the class and always felt engaged and interested in the material.
19	No suggestions it was a great class.
20	No changes! I really love how participation and discussion is included in a class of this size. Poll everywhere is great :)
21	No I absolutely loved it
22	N/A
23	Loved it!
24	Less bio, more psych
25	Less Mindtap chapter assignments and better more organized study sessions with the TA's.
26	Keep up the good work
27	I wish we could have continued in person. This class was so much fun!
28	I wish this class had met more often during the week instead of having been a hybrid class.
29	I wish that we spent more time engaging in class and had more time to go into content detail
30	I loved Dr. Jennings. I was taking this class a second time and Dr. Jennings presented it in a fun and influential way. I loved reading and I enjoyed her ability to make the class laugh. She was very understanding and made time for students' concerns if her TA's couldn't help.
31	I honestly have no suggestions because the class was so well planned. I enjoyed all the jokes and how fascinating the subject was. I would recommend this course to anyone.
32	I appreciated the way you cared how COVID affected your students and wanted to help us. thank you
33	Great course Dr Jennings!

Q15 - COMMENT. Do you have any suggestions for this instructor?	
Faculty:	Eevin Jennings
Response Rate:	60.42% (29 of 48)
1	none.
2	na
3	Teaches with a personality rather than monotonously going over the material. Which makes the class seem interesting.
4	Professor Jennings is an amazing instructor and would definitely take her classes again!
5	Present all the required material in class.
6	No
7	Nothing. I understand the difficulty in this circumstance
8	None.
9	No, besides keep it up!
10	No suggestions, Jennings is great
11	No suggestions, did an awesome job
12	N/A
13	More interactives for the homework
14	Keep up the good work! I'm not a psychology major of any kind, but I really enjoyed your passion and enthusiasm for teaching. You are probably one of the best professors that I've has thus far in college.
15	Keep it up!! You're a bad ass. Birds are pretty cool too.
16	Keep doing your thing
17	Just to keep being awesome!!
18	Just keep being nerdy and witty its quite charming.
19	It is difficult to contact the professor, however there are TA's that can help. It would be nice to be able to be more in contact with her though
20	I would recommend other people to specifically take this professors class. She made this class enjoyable to go to.
21	I wish you responded to my messages because I never got a reply even before the school went online and everything went crazy.
22	I really liked that the professor seemed knowledgeable on the material and that she would sometimes use jokes and memes to more easily get the material across.
23	I really enjoyed this class (even though I struggled in it) because of Professor Jenning's unmatched enthusiasm about the material she was teaching. She really knows her stuff and was really great at giving lectures. I wish she would have hosted the Exam Revies too.
24	I loved your teaching and the class was always the highlight of my week!
25	I love your enthusiasm and relatability to your students. Thank you for being very understanding during the pandemic as well!
26	I cannot stress enough how wonderful Dr. Jennings is. She was already a great professor before we switched to online, but she made the transition so easy and minimally stressful. I wish all my other professors were as amazing as her.
27	Dr. Jennings was a great professor! She was encouraging, straightforward, funny and very relatable. There is nothing I would ask her to change.
28	Dr. Jennings was awesome. Very interesting lectures
29	Do not make this class a hybrid. Students learn more from in-person instruction, and I find the lectures engaging. This level of learning is not achieved when you rely on the students reading the book for the remainder of the material. This class did not come up as hybrid when I chose my classes; if I wanted a hybrid course, I would have selected one that was stated as hybrid.
