Q4 - COMMENTS. Do you have any suggestions for this course?	
Response Rate:	44.00% (11 of 25)
1	none
2	This was by far the best course I have ever taken at ASU. The class was inherently interesting and Dr. J made it all that much better. She is a delight of a person and professor and it was a joy being in her class.
3	The course could stand alone without a lab.
4	Really great course
5	None, this course speaks for itself. It has such interesting topics. I loved it.
6	No, I loved this course
7	I have no suggestions for this course. Everything was clearly explained.
8	Dude keep rocking if
9	Course was really hard because there was a lot of content but the grades were fair and reflected your effort
10	Cannot say I do.
11	Best course and instructor!

1	nope
2	YOU ROCK!!
3	The best professory I have had here at ASU. She is very engaging when lecturing and keeps up updated on anything we need to know. She provides outside materials for us to understand the concepts more in depth and is always willing to answer even the most outrageous, but important, questions!
4	Thank you, you have been such an amazing instructor!
5	She is absolutely amazing. She is very knowledgable and she cares about students so much.
6	One of the best professors I have ever had here. Amazing!
7	One of my favorite professors at ASU! Simply marvelous with her teaching capability. If I could take every subject with her I would.
8	I wish I could take every class from this professor. She is so funny, keeps everything interesting, and I feel like I actually retained most of the information from this class, which I cannot say the same for other courses. This course has been one of my most favorite courses I have had in my 3 years at ASU.
9	I loved this class, as well as when I took your physio pysch class. I think you are an incredible professor, I honestly was never this excited for a class before and this class met up to all my expectations. I was very determined this semester am very proud of the grade I received, and very thankful for your teaching style. The fill-in-the-blanks slides are a great way to encourage attendance and I always thought the exams were structured fairly. I just wanted to complete the course evaluation, and thank you for being such an amazing professor (there is nothing that i would suggest you change!)! I wish I could take more of your classes! :)
10	I like that Dr. Jennings can so easily maintain a lighthearted lecture while forcing us to focus on the seriousness of the material. It makes me more excited to come to class and know that the material will be engaging. I have had many professors at ASU but none have been quite like Dr. Jennings. I truly enjoyed her class and was sad to have to adapt to an online format solely because I liked attending the lectures so much. Dr. Jennings was very flexible with us when it came to the online adaptation and was very willing to work with us on our accessibility to the course. I am grateful to have taken this class with her.
11	I feel like this goes without saying but WOW Dr. Jennings is amazing. She is so funny and made coming to class such a delight. Time flew by in this class.
12	Eevin goes hard, she really does. You can tell she has genuine compassion for her students; she handled this COVID-19 situation really well (was accommodating, offered help academically and personally, etc.). Honestly I hate the content of neuroanatomy (I'm terrible at memorizing tedious things), but she actually made it enjoyable—which is really saying something. Slides were extremely clear and accessible. Gifs and animations kept me engaged. Her personality really shines during lecture. Makes perhaps the most boring content imaginable into a lecture that is genuinely fun. Keep it up Big E!
13	Dr. Jennings was definitely one of my favorite professors this semester. She had an amazing way of making the most complex topic (the brain) into something straightforward. All expectations were laid out to begin with, along with some humor. I think Ill remember what I have learned for a long time, and hopefully build on it soon.
14	Dr. Jennings is an excellent instructor. She is very knowledgeable about the material and clearly puts a lot of effort into presentations and information. Examples were always super interesting and her lecture style is very engaging. While some students may have struggled during exams, it seemed that there was always opportunities to make points up if you put the work in. Expectations were very clear. While attendance wasn't required, I always enjoyed this class.
15	By far the best instructor I have had at ASU. I have already taken three courses with her, and I would gladly take more! Her enthusiasm makes even more dry parts of the course interesting, and she is excellent at listening to students, encouraging student response, and gauging when students are struggling with the material.
16	By far my favorite class and my favorite instructor! I always looked forward to coming to class!
17	An amazing professor, would take her again!
