1	put more emphasis on yellowdig with notifications wise. I kept forgetting and screwed my grade with it.
2	Video formatting would sometimes not allow for scrubbing, made it very difficult if I missed something as I would have to re-watch the entire video. Keep the discussion board how it is. Out of all of my classes that is the only one that I enjoyed reading and responding to. Its format allows for freedom of thoughts and expression.
3	This course challenged me within my range of capability while holding my utmost interest. I have never learned so much in a course before! The exams were reasonable and the study sessions provided for the exams were extremely effective. Amazing course!
4	This course is amazing!
5	Stellar course and instructor
6	Some of the exams were too detailed but this improved towards the end.
7	Possibly having more time for questions would be nice or even more chances for class discussions. Other than that, it was a great

<b>1</b>	keep adding humor to your lectures, it's SO helpful for remembering the material and makes me excited to share it with other people outside of class. also keep using the clickers, they're super helpful and great for exam reviewing!
<b>2</b>	amazing instructor
<b>3</b>	Your teaching style is amazing! I had so much fun learning from you, thank you!
<b>4</b>	You did a wonderful job with the course! I'd only suggest making the pre-lecture assignments a bit more straightforward and less video based.
<b>5</b>	You are an amazing instructor and the only reason I have not given up this semester. I look forward to your classes each week in a way that I have not for a long time. Thank you!
<b>6</b>	Well... I've been wanting to tell you this since our chapter on brain disorders, but absence seizures are pronounced ab-saw-nce, not ab-sense... It's French...  Other than that nitpicky thing (a lot of MDs pronounce it incorrectly), I loved the course and Dr. Jennings.
<b>7</b>	This course was by far my favorite course of the semester it really piqued my interest in neuroscience. Dr.Jennings does a great job in teaching hard subjects by demonstrating different learning techniques to facilitate all students. Yellowdig is a great learning tool as well as using clickers to help keep students engaged but also to demonstrate where the class is at in their understanding of the material. Dr.Jennings is extremely knowledgeable in her area of expertise and is always willing to help students to better understand the material presented.
<b>8</b>	No.
<b>9</b>	No she is amazing and dedicates herself so much to her students and course material
<b>10</b>	Keep doing what you're doing

11	Keep doing you! You have the "it" factor!
12	Keep doing what your doing. I loved your clas.
13	Keep being awesome
14	I loved the energy that you would bring to every class while still being very knowledgeable on every topic you mentioned, even the random ones. I really appreciated the extra material that was applied to what we were learning.
15	I love the way she teaches, and I love how much she knows about the material. I love the pace she goes, and how understanding she is as a teacher.
16	I like the flipped classroom structure, but sometimes the reading/lecture assignments can be very lengthy and I feel like we could use more time in class going over these topics.
17	I LOVE YOU DR. JENNINGSS <333
18	Dr. Jennings is the best professor I have ever had at ASU. She puts in so much time and effort to not only create the material and videos for the class but also worked to create a very open and inviting atmosphere for the online classroom, which I have not experienced in any other ASU Sync class thus far. She works to make sure everyone's voice is heard in terms of altering expectations for the class layout, as well as taking into account that many students are facing other life difficulties at the moment because of the pandemic. She is compassionate but expects only the best from us, which is probably why there is so much participation during lecture and why there are quite a large number of students doing well in the course. She is the best!!
19	Dr. Jennings can sometimes engage in "TMI". She is a very nice person, and I had a very good experience in this class, but... it can be a bit much.
20	Dr. Jennings is by far one of the greatest professors I have ever had. Her enthusiasm and knowledge of the material made me excited to learn more about it! She is also a very genuine person, and although this semester was tough on her, she kept it real with us and delivered a simply wonderful class!
21	Dr. Jennings has been the best professor I have had at ASU, by far! She engages the class in the material, dedicates her time and energy to helping the class succeed, and truly cares for her students. She gets to know each student and builds awesome relationships with them. Her teaching methods are extremely effective. She is also extremely approachable and available to students when needed. Amazing job, Dr. Jennings!!
22	Dr. Jennings was an exceptional instructor. Her class was highly engaging and very interesting. I would definitely recommend this course.
23	Dr. Jennings is ABSOLUTELY AMAZING. That is all.
24	Dr. Jennings is an incredible teacher!
25	Dr. Jennings is a God send professor. She is incredibly knowledgeable and cares about her students. Her teaching style is perfect for actually learning material, not just memorizing it.
26	Dr. J was one of, if not the best, professor I have had especially in regards to transitioning to online. She was fair and honest while not being to lenient and promoting laziness. I really appreciated her teaching style and assignments as well!
27	Awesome!!!!!!!!!!
